Pretoria, Gauteng, South Africa

PROFESSIONAL SUMMARY

Computer Science student at Tshwane University of Technology (TUT) with a **73% academic average**, having completed academic coursework and currently seeking a **Work Integrated Learning (WIL)** internship to fulfil the practical training requirement for the Diploma in Computer Science.

Strong foundation in **Java, Object-Oriented Programming, Software Engineering, SQL, PL/SQL**, and backend application development. Experienced in developing database-driven applications using **Spring Boot, JPA, Hibernate, JDBC**, and **RESTful APIs** through academic and personal software projects.

Passionate about designing reliable software solutions, solving complex technical problems, and continuously expanding knowledge in enterprise Java development, backend systems, database technologies, and modern software engineering practices. Seeking an opportunity to contribute as a **Software Developer, Java Backend Developer, Graduate Software Engineer**, or **WIL Intern** while continuing to develop professionally.

TECHNICAL COMPETENCIES

Programming Languages

Java • JavaScript • SQL • PL/SQL • Kotlin • HTML5 • CSS3 • Python (Foundational)

Backend Development

Spring Boot • Spring Data JPA • Hibernate • RESTful APIs • JDBC • Java EE (Servlets, JSP, EJB) • JSON • XML

Database Technologies

MySQL • Oracle Database • Apache Derby • Microsoft SQL Server • SQLite • Relational Database Design

Software Engineering

Object-Oriented Programming (OOP) • Data Structures • Algorithms • Discrete Mathematics • Software Engineering • Debugging • Problem Solving • SDLC

Development Tools

Git • GitHub • IntelliJ IDEA • NetBeans • Visual Studio Code • Android Studio • Maven • GlassFish • Postman • Linux (Fundamental)

TECHNICAL PROJECTS

Employee Management System

Tech Stack: Java 17, Spring Boot, Spring Data JPA, Hibernate, MySQL, HTML, CSS, JavaScript, Maven

GitHub: <https://github.com/Njabulo25/employee-management-system>

- Built a full-stack Employee Management System using Spring Boot and MySQL.
- Developed RESTful APIs for employee CRUD operations.
- Tested APIs using Postman and managed the project with Maven.

Student Management DAO

Tech Stack: Java, JDBC, SQL, MySQL

GitHub: <https://github.com/Njabulo25/student-management-dao>

- Built a Java application implementing the DAO design pattern.
- Performed CRUD operations using JDBC and SQL.
- Applied object-oriented programming and relational database concepts.

Iron Scalper Forex Trading Bot

Tech Stack: Python, MetaTrader 5, Flask, HTML, CSS, JavaScript

GitHub: <https://github.com/Njabulo25/iron-scalper-forex-bot>

- Developed an automated trading bot for financial market analysis.
 - Implemented algorithmic trading and breakout strategy logic.
 - Built a web dashboard for monitoring bot activity and performance.
-

EDUCATION

Tshwane University of Technology (TUT)

Diploma in Computer Science (*NQF Level 6*)

Status: Completed academic coursework and currently seeking a six-month Work Integrated Learning (WIL) placement required for graduation.

Academic Average: 73%

Expected Graduation: 2027 (upon successful completion of WIL)

Relevant Coursework: Object-Oriented Programming, Software Engineering, Internet Programming, Database Programming, Mobile Computing, Operating Systems, Computer Architecture, Discrete Mathematics.

LANGUAGES

Xitsonga (Native) • English (Professional) • isiZulu (Conversational)
